PartA#1 - Incorporate a text caption on a simple illustration

This page is created with an image of Steve Jobs and by using selection tools, I used layer mask and put the cropped face in other layer then selected the half of page and used text tools for caption then deleted inside of letters on the face. By using Inner Glow and Stroke, I made a poster of this artwork.

PartA#2. Create large format hand drawn text with gradient or textured effect

These Hand drawn pages are drawn by using brush tools with background made by gradient tool. By selecting the text and deleting inside of that, I mixed two kind of gradient, one inside the text and one in the background. I think this colorful hand written promotes the funny and amusement subjects of trading.

PartA#3. Create two simple storyboards (negative space)

This negative space image is made by using my picture with selecting tools and cropped image. Next, Blur filter and Gaussian filter are applied then threshold filter to get black and white image. Using Polygonal tools to create triangles and text tool to have a caption. These kinds of artworks are useful to create posters for advertising the movies, trademark logos of companies and many other purposes.

This negative space is made by using text tools and each letter in one layer then changed the color of "R" to white. By using Edit, Transform and selecting Distort, made a contrast between black and white. A small word "Negative Space" inside the letter "A" is the title of this project's part.

Part-B- Imaginative and original artwork for a book

**MOBINA IS STILL WAITING AND
TASNIM IS STILL BIKING, SO
GUESS HOW DOES MOBINA FEEL ?**

**FINALLY, TASNIM GOT TIRED,
LEFT HER BIKE AND SAT
BESIDE HER LOVELY SISTER...**

This book contains nine illustrations that introduce a story of two sisters in their vacation. This is a real story with nine real pictures made with Photoshop. Using clipping mask technique copied all images on one page. Using Image on top bar menu and go through Adjustments and using Threshold gives a black and white picture incorporating a negative space texture to the images.
